**RUSSIAN-CHINESE RESEARCH and PRACTICE CONFERENCE
on Medical Microbiology and Clinical Mycology
(XVIII Kashkin Readings)
09-11 June 2015, Saint-Petersburg.**

Organizers

Organizers:

- Ministry of Public Health of the Russian Federation
- Association of Sino-Russian medical universities
- North-Western State Medical University named after I.I. Mechnikov
- Kashkin Research Institute of Medical Mycology
- Harbin Medical University
- All-Russian Scientific Society of Epidemiology, Microbiology and Parasitology, Saint-Petersburg branch
- Profile Commission of the Ministry of Public Health of the Russian Federation with the specialization in «Clinical laboratory diagnostics»
- Federation of Laboratory Medicine
- Committee for Public Health of Saint-Petersburg Government
- Research Institute of Epidemiology and Microbiology named after N.F. Gamaleya
- Research Institute of Children's Infections
- Research Institute of Influenza
- Research Institute of Epidemiology and Microbiology named after Pasteur
- Research Institute of Experimental Medicine

INVITATION

Dear colleagues!

We kindly invite you to attend the Russian-Chinese Scientific Conference on Medical Microbiology and Clinical Mycology (XVIII Kashkin Readings) which will be held at the Hotel «Saint-Petersburg» in Saint-Petersburg (Russia) on 09-11 June 2015.

Carrying out of the Conference will serve as a powerful integrative factor for local and foreign laboratories, will help to strengthen the Russian-Chinese cooperation and to train talented young scientists. Within the framework of the cooperation with Association of Sino-Russian Medical Universities (ASRMU) and Harbin Medical University (China) will be co-organizer of the Conference.

During the past decade opportunities of modern medical microbiology and clinical mycology have been rapidly increasing. The development of new technologies in the field of molecular microbiology, genomics and proteomics, as well as the discovery of new antimicrobial agents, have opened up new horizons for research and clinical practice in the field of medical microbiology and clinical mycology.

The Russian-Chinese Readings of the International Association of Medical Microbiologists and Parasitologists (IAMMP) will be held in the form of a round table on the topic of "Clinical Mycology".

During the conference the following special topics will be in focus:

1. New technologies in medical microbiology.
2. Molecular epidemiology.
3. Globalization and microbial resistance.
4. Diagnostics and treatment of infections in immunocompromised patients.
5. Health-Care Associated Infections.
6. Epidemiology of mycoses – new risk groups.
7. Up-to-date recommendations in diagnosis and treatment of mycoses.
8. Infections in Dermatovenereology practice.
9. Etiological agents of rare, new and re-emerging infections.
10. Microorganisms – biodestructors of hospitals and dwellings.
11. Issues and challenges in training of Medical Microbiologists.
12. Genomics and proteomics in clinical microbiology.
